THEME ANNOUNCEMENT

#LIFE AT HOME

Human life is now heavily affected by COVID. Almost all activities in normal life are brought home, such as studying, working, cooking, watching movies, etc. This makes the house that normally has nothing outstanding, now becoming more special than ever.

Before

After

Instead of being in an office with a quiet atmosphere, working from home brings so much stress! Help!!!

Before

After

Did anyone pretend to open a laptop and skip class or go to sleep? It seems like home learning is a useful method for creative heads that uncover the best of "truancy" ways.

Before

After

Can not go out? So just create a playground at home! Living room, bedroom, kitchen, where is the best place to play sport?

Before

After

Well, let's just put aside the passion of eating at the restaurant for now. But at home, how should I cook,... should I grow vegetables and raise fish for ingredients? However, cooking with loved ones is also fun, right?

Before

After

Isn't it fun to make your own drinks at home? Have you tried the Dalgona hot trend of the Covid season this year? The experience of making delicious drinks at home is also very good.

Before

After

Yup shopping at home is fun, but it's also a bit risky to not be able to experience the items you want to buy directly, right? Do you think about any risks left when shopping online?

Before

After

Usually, we just need to go to the cinema to watch our favorite movies. Now at home, we can only watch it on some movie apps or websites (but the website is not always able to see). Hmm, the journey to watch our favorite movie at home is a bit difficult now.

Before

After

Sometimes staying at home and listening to old music that we haven't heard in a long time is also a pleasure! Challenge your friends to see how many old songs you remember.
